EXPERIENCE

Convergytics Sol Pvt Ltd/ Data Scientist
2018 Dec – Present, Bangalore

- Extensively used Prophet and ARIMA models for demand forecasting in fashion retail and majorly focused on automating the process and optimizing the compute time while maintaining the accuracy.

- Decreased the cost spent on resources by replacing VMs with Docker architecture.
- Built a forecasting web application in Django which can implement important forecasting algorithms deliver quick insights and thereby decrease the time taken for primary analysis.
- Extensively used Azure services for various applications

Convergytics Sol Pvt Ltd/ Data Science Intern
2018 Aug – 2018 Nov

- Explored and reported insights to Data scientist and assisedt in predictive modeling.
- Wrote python scripts to automate the modeling process for different datasets.
- Built Dashboards in Tableau and python scripts for backend data manipulation.

EDUCATION

Ramaiah Institute of Technology, Bangalore— *B.E*
Telecommunication Engg

AUGUST 2014 - JUNE 2018   **GPA: 7.9 / 10**

COURSES

Data Analyst Nanodegree— *(Udacity)*
- A six month intensive program where I worked on intense data wrangling, plotting techniques and implemented few regressor algorithms and created multiple dashboards on Tableau

SKILLS

Demand Forecasting, Visualization, Wrangling, Machine learning, Azure Web development

TOOLS

Python, SQL, Tableau, Azure.

R, PowerBI, Django

LANGUAGES

English, Hindi, Telugu, Kannada
